Warrant for Annual Meeting

STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Wilton in the County of Hillsborough and State of New Hampshire, qualified to vote in Town Affairs:

You are hereby notified to appear at the Town Hall in said Wilton on Tuesday, the 9th day of March next, at nine o'clock in the forenoon, to act upon the following subjects.

1. To choose all necessary town officers.
2. To hear the reports of town officers, agents and committees, and pass any vote relating thereto.
3. To see if the town will grant the free use of the town hall for the following purposes, Roy Bent Post No. 10, American Legion, and the Wilton Fire Department for their annual party, and the Roy Bent Post No. 10, American Legion, for Memorial Day exercises.
4. To see if the town will vote to authorize the Selectmen to borrow money in anticipation of taxes.
5. To see if the town will authorize the Selectmen to administer or dispose of any real estate acquired by the town through tax collector's deeds.
6. To see if the town will vote to raise and appropriate a sum of money to be expended for the improvement of the park and playground, or take any action relating thereto.
7. To see if the town will vote to accept State Aid for the construction of Class V highways in accordance with Chapter 17 of the Laws of 1935, the town to raise \$549.50, the State to contribute \$2198.22.

8. To see if the town will vote to build any permanent sidewalks, or take any action relating thereto.

9. To see what action the town will take in regard to the following question: "Is it expedient to revise the Constitution?"

10. To see what action the town will take in regard to the bridge on the Isaac Frye Highway over the Souhegan River.

11. To see if the town will vote to create a Town Planning Board under the provisions of Chapter 35 of the laws of 1935 and raise and appropriate money therefor or take any action relating thereto.

12. To see if the town will vote to adopt the budget as prepared by the budget committee or make any alterations relating thereto.

13. To see if the town will vote to discontinue, subject to gates and bars, the highway leading from Route No. 31, near the cement bridge at Gray's Corner, past the old Webb Place, so-called, and the residence of James Avery to its westerly junction with said Route No. 31.

14. To see what sum of money the town will vote to raise and appropriate to defray town charges for the ensuing year, including maintenance of poor, aid to dependent soldiers, old age assistance, highways and bridges, interest, serial notes, health department including nurse, street lighting, water works, sewers, state and county tax, town officers' salaries and expenses, police department, fire department, care of cemeteries, patriotic purposes, town hall, memorial and town house lot, and miscellaneous items.

15. To transact any other business that may legally come before said meeting.

Given under our hand and seal, this 20th day of February, 1937.

D. R. BATCHELDER,
J. E. BURKE,
RALPH A. TUTTLE,
Selectmen of Wilton, N. H.

BUDGET

**Estimates of Revenue and Expenditures for the En-
suing Year, Feb. 1, 1937 to Jan. 31, 1938, Com-
pared with Actual Revenue and Expenditures

Report of Water Commissioners

The supply of water for the past year has come from the old reservoir and reports from the state laboratory show that it was of good quality.

Broken pipes and hydrants have been repaired and replaced.

By an act of the Public Service Commission we were obliged to set up a new set of books and to conform with their request we had this done by the F. L. Willis Company of Concord.

Measurements taken from the weir below the bridge at the Stockwell reservoir show that the leakage is the same as in 1934 and 1935, 116,000 gallons per day.

C. E. PUTNAM,
Overseer of the Poor.

REPORT OF COMMITTEE TO MAKE IMPROVEMENTS IN VALE END CEMETERY

1936

At the last Town Meeting I was appointed chairman of a committee to make improvements in Vale End Cemetery.

During the early spring the committee obtained quite a number of native shrubs and trees which were planted in various parts of the cemetery.

By means of money donated by lot owners and other interested people we were able to purchase shade trees which were planted along the main entrance road. Also a few other types were purchased and planted.

The committee also laid an electric line underground to the pump house built by the town in 1935. They also installed an electric pump furnished by the town.

All the plantings were watered during the summer by various members of the committee and in the late fall appeared in good condition.

WHITNEY M. FRYE, Chairman.

Edgar Butterfield, George Batchelder, Mrs. David Crompton, Vernon Greeley, Miss Marion Hartshorn, Luther Langdell, Sterling Turner, Bertus Wright, Ernest Wright.

Wilton, N. H., February 11, 1937.

Report of Auditors

Wilton, N. H., February 26, 1937.

To the Townspeople of Wilton:

We have completed our audit of the books of the various officers of the town for the year ending January 31, 1937, and find them in very good shape.

The records of the Trustees of the Trust Funds, Trustees of the Wilton Public Library, Trustees of the E. A. Newell Book Fund, and Judge of the Municipal Court have all been carefully checked and found correct.

The books of the Water Commissioners have been checked for receipts, payments and uncollected accounts for the year and found correct. The records of the Town Clerk for collection of fees for permits for registration and dog licenses have been checked through and found correct.

The books and records of the Tax Collectors for the past six years have been checked and found correct and all uncollected taxes as of January 31, 1937 are being verified by sending notices to each one indebted to the town on that date.

We have checked the records of the Town Treasurer for the year and find that they agree with all payments made to him by the different collectors mentioned above and these amounts immediately deposited in the bank.

The records of payments made in the Selectmen's books have all been examined and all payrolls checked for signatures and payments. We found a few slight errors on payrolls and these have all been corrected or will be within a few days we understand. There were two errors on the Town Relief account and we are told that these too will be corrected at an early date. These items were both checked by the County Comptroller's representative

and approved as paid. There were a few minor over-payments and at this writing most of them have been corrected; these items will appear in receipts of February 1937.

There are certain Town Departments which are very lax in returning to the Selectmen bills presented to them for approval. We trust that all bills will, in the future, be approved and returned within a few days so that these items will not be mislaid or destroyed. Due to these being lost a few bills have been paid as "Account Rendered" and we cannot check or approve of same and the makers advise that it is impossible for them to check them back. This certainly is not the responsibility of the makers but of the department directly involved.

We wish to thank the various officers for having their books prepared and waiting for us so that we were able to give a little more time to the work this year.

Yours truly,
JOHN T. HURLEY,
PAUL V. HERLIHY,
Auditors of the Town of Wilton.

TRUSTEES' REPORT

During the past year, the Trustees have given the matter of Trust Fund investments attention, resulting in the sale of some non-dividend paying bonds and stocks and the purchase of other investments now paying dividends. The result has been that a moderate increase in income is promised for 1937, and unless unforeseen repairs are necessary on the building, the extra income can be spent for books. We realize the need of more new books and it is our earnest wish to do all possible to bring this about. The lowered interest rate and dividend payments has been difficult to overcome.

Through the very generous bequest of the late Arthur L. Keyes of Milford, the library will benefit by the amount of \$100.00 to be paid annually to the Trustees for the purchase of books in memory of his father and mother, Mr. and Mrs. George L. Keyes, formerly residents of our town. These payments will begin when the Trust is definitely established.

THE TRUSTEES.

REPORT OF THE SCHOOL BOARD

The School Board of Wilton submits the following report:

Each year brings changes in education. We invite the parents to consider such changes that they may better fit their children for the future. The two objectives in the High School are: (1) fitting the students for college or other school of higher learning, and (2) to prepare those who are not going beyond the present school to fit into places where they may become useful citizens.

Most colleges no longer require Latin for entrance so we will discontinue it after the present year as we feel a larger number of students will profit by the teaching of more useful subjects such as Natural Sciences.

Parents have been quick to realize how practical the commercial subjects are and the course has had a good start, although to make it more effective more equipment is needed.

The Domestic Arts course in its new and up-to-date quarters is perhaps one of the most important subjects being taught. Its scope might be broadened to include boys as well as girls. Boys, as future home-makers, might be interested in nutrition, out-of-door cooking, or household accounts.

One need not speak of the importance of English which is used in every walk of life. A debating club might be developed and more dramatics given if space could be provided for coaching such teams.

A world of enjoyment and education is introduced in the study of music and music appreciation. We are looking forward to a time when a large number of students can take an active part in orchestra or glee club.

Interest in sports is carried all through life. Physical education develops a student physically, mentally and socially. Besides being a health-builder it teaches such valuable assets as cooperation and coordination.

During the past summer we were disturbed by the resignation of two members of our teaching staff, Mr. Harlan Atherton, the Headmaster of the High School, and Mrs. Inez Draper, the second grade teacher.

On such short notice we felt that we were very fortunate to fill the vacancies so effectively. Mr. Caleb Niles comes to us as Headmaster with a wealth of training and experience, and has fitted into our school system very well.

Medical Inspection and Health Supervision are being adequately handled and we are fortunate that there have been no serious illnesses or epidemics this year.

Taxes must be watched by all departments. We are interested to maintain an efficient school system at as low a cost as possible. Certain upkeep and repairs are necessary each year. Delaying these repairs only means added expense as time goes on.

The town is fortunate in having an auditorium. It is in use practically all the time during the school week. Town groups have asked to use it during the week-ends. As this means an extra expense for heat, light, and janitor service, a minimum charge is made to offset the cost. Both the school building and auditorium should be available for adult classes in the evening when not in use for regular school schedules.

The interest which parents and friends of the school show is most gratifying. Constructive criticisms are always welcomed and are given careful

consideration. Visitors are invited to attend classes whenever they desire.

E. J. ABBOTT,
ELIZABETH M. PIERCE,
GEORGE S. PROCTOR.

BUDGET—1937-1938

Estimate of proposed expenditures in the School District of Wilton for the fiscal year July 1, 1937 to June 30, 1938, and recommendations of sums to be assessed, including statutory requirements.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Wilton:

I respectfully submit my fourteenth annual report as Superintendent of Schools:

Supervision

There has been no major change in the general plan of supervision from that of previous years. The results of the standardized tests are used with more effectiveness as we gain in the understanding of the meaning of test results and methods of utilizing them to improve instruction. The outstanding illustration of this gain the past year is in the fields of Reading and Spelling. When tests showed weakness in the reading skills, and particularly in the knowledge of exact meaning of words, we shifted the emphasis in methods of teaching reading to meet the situation. This weakness carried over also into spelling abilities, and we have made a change in the spelling system, introducing a new type of textbook which is a combination of spelling and word study. These have been in use approximately two months and the improvement in spelling is noticeable already by comparison with work of the preceding months. Standardized tests in the spring and next fall will indicate the extent to which we have overcome the weaknesses, and will point the way to future procedure.

Teachers and Salaries

The surplus of qualified teachers which existed during the years of the depression has very largely disappeared. There is almost a scarcity of good primary teachers and no more than the normal surplus of upper grade teachers. This situation has accelerated the rate at which teachers' salaries are being restored to their former levels, from the reduced salaries that prevailed in the past five years.

High School Curricula

In accordance with the decision of the School Board the teaching of Latin is to be discontinued after the present school year. We now have but one class made up of pupils who began the subject last year and to whom we were under obligation to offer a second unit in accordance with the general practice of not giving credit for less than two years of any foreign language.

This decision was reached after a study of the entrance requirements of all of the colleges to which Wilton students have gone in recent years. With two or three exceptions, it is now possible for high school graduates to enter these colleges without Latin.

The University of New Hampshire now admits to the Freshman Class candidates who show evidence either by high school record or by examination that they are prepared in fifteen units, of which three must be in English, two in Mathematics (three for the College of Technology), one in Social Science and History and one in Natural Science. The remaining units may be offered in either of these four fields, foreign languages or vocational subjects with the stipulation that not more than three units may be offered in vocational subjects.

Dartmouth College makes no rigid demand for a specified number of units in any particular subject. I quote from their regulations the paragraph concerning Scholarship, "The record of each candidate for his entire secondary school course will be carefully studied with particular emphasis given to the work of the last two years. If a candidate is to be admitted, his scholastic record and the recommendation given to him by his school principal must show that he is possessed of an educational background sufficiently rich and broad in range to in-

dedicate definite intellectual capacity and ability to do justice to the academic work of the college. A candidate may present for admission any subjects taught in an approved secondary school which represent accepted courses in the following fields of study: English, Foreign Language (ancient or modern or both), Mathematics, Natural Sciences, Social Studies."

Statements similar to the above quotation from Dartmouth requirements are to be found in the catalogues of an increasing number of colleges.

Physical Education

In accordance with the policy established by the School Board last spring a fairly complete program in physical education has been inaugurated, with the physical director giving practically his entire time to the carrying on of physical activities throughout the grades and high school. His work with the first six grades is done with the cooperation of the regular teachers but through the seventh to twelfth grades he has entire charge of all the work including the coaching of athletic teams.

The plan of organization is in accordance with the program recommended by the State Board of Education for "Health and Physical Education." In the Junior and Senior High School, with the exception of a few students whose schedules are irregular or who have been excused on the advice of the school physician, every pupil is required to take part for three periods per week in the physical activities provided.

The schedule of activities offered to girls differs from that offered to boys and in both cases it varies from season to season. For example: during the fall the boys participated in such activities as playground baseball, touch football, speed ball, basketball, dodge ball, pass ball, boundary ball, and a vari-

ety of relay games. At the same time the girls were engaged in playground baseball, volley ball, basketball, dodge ball, circle chase, circle ball passing, and various relay games. All of these were outdoor activities except on rainy and cold days when the gymnasium was used. Through the winter season indoor activities are necessary. A program of winter sports was planned also but the weather conditions have not been favorable to much activity in this field.

The program briefly outlined above is in agreement with the general practice of abandoning general setting-up exercises and gymnastics in the belief, supported by expert opinion, that the same results may be secured as well or better through activities which are more natural and enjoyable.

With further experience and some additional facilities we hope to improve the program as time goes on and eventually bring in remedial work for boys and girls who have physical handicaps requiring special types of exercises.

Music

The work in music throughout the grades and high school has continued on the plan outlined by Miss Edwards in her report last year. The operetta which the high school glee clubs presented last spring was a creditable beginning and the two glee clubs this year are beginning work on another operetta to be presented early in the spring. The high school orchestra is making good progress and this year a beginners' orchestra has been organized among the pupils of the junior high school and grades immediately below, with some twenty odd pupils many of whom had not previously had experience with musical instruments. Credit toward graduation is granted for participation in the glee clubs and high school orchestra, and the course in music

appreciation is a unit course which may be taken in place of any other elective unit course.

Gifts

Acknowledgement is gratefully given to Mr. Harold D. Cheever for his gift to the high school library of "Source Records of the Great War" in seven volumes and the five volume "History of New Hampshire by Hobart Pillsbury. These are valuable reference books in the library of social studies.

Repairs and Improvements

Necessary repairs during the past year have included redecoration of several class rooms, rearrangement of the lower hall to improve traffic conditions, replacement of the underground return pipes of the heating system. For the coming year, several other class rooms and the halls should be redecorated and the outside of the main building needs painting.

Improvements to the school plant last summer included the provision of showers and lockers for the classes in physical education. For the boys the facilities are very adequate but some further changes need to be made this coming summer to improve the facilities for the girls.

State Aid

The reduction in the amount of equalized valuation of the town as determined by the State Tax Commission every two years, will result in an increase of approximately \$1,000 in the state aid allotment for Wilton. The exact figure has not been reported but we should receive at least \$1,225 next December.

Respectfully submitted,

VERNON S. AMES,

Superintendent of Schools.

Wilton, N. H., February 19, 1937.

HEADMASTER'S REPORT

To the Superintendent of Schools and School Board of Wilton:

Following the usual custom, I submit herewith my first report as Headmaster of Wilton High School.

Since I have been in Wilton only a few months, the following report will reflect in a large way the fine work of my predecessor, Mr. Atherton, and the careful planning of Superintendent Ames. I will make, therefore, some personal observations of the general situation, with perhaps a comment or two as to possible improvements.

School Plant. The school plant, although not the most modern in many respects, is quite adequate for successful work. The Gymnasium-Auditorium provides opportunity not only for physical education, but for music, dramatics, assemblies, socials, and other special activities, which mean a great deal to a school and to pupils participating in those activities. This building is used practically every minute of the day, and many evenings. Showers and locker rooms installed last year are a great improvement, and these facilities are used by almost every pupil. Artificial lighting in study hall and class rooms is poor, and should be improved. Ventilation could also be improved by use of deflectors at windows to prevent direct drafts when windows are opened.

Equipment. Much has apparently been done in recent years to keep equipment modern and up-to-date. There still remains a real need for some new equipment for commercial course, if we are to train pupils properly for real office work. A mimeograph, or other duplicating machine, would not only permit instruction in the use of such a machine, but would be of great value to teachers in making out examina-

tions, and in preparing materials for pupils. Use of filing cabinets, adding machine, and other office appliances could well be taught in this course, were such appliances available.

Course of Study. Wilton High School offers an extremely well balanced program of studies. It amply provides for adequate preparation for those planning to go to college, as is verified by reports of the recent graduates of Wilton High School who are now in college; yet at the same time, in its Domestic Arts, Commercial and Technical courses, it takes care of the larger number who will not go further in their school work. The elimination of Latin, and the substitution of Commercial or other more practical courses seems to me well advised.

In one of the most important phases of education, namely, Physical Education, Wilton now has an excellent program. Each pupil is expected to take three periods weekly of physical education. Through the ability and enthusiasm of Mr. Conrad, their work in gymnasium has been very beneficial in building up sound bodies, and in addition, the work has been thoroughly enjoyed by the pupils themselves.

Despite the fact that athletics have not been allowed to assume any exaggerated place or undue importance, our teams have all made very fine records in interscholastic sports. Wilton won the baseball championship of the Monadnock League, and at the present time both boys' and girls' teams are among the leaders in the basketball league. As Wilton is smaller than most of the schools of the league, we may well be proud of our record.

Instruction. Wilton High School is extremely fortunate in having an exceptionally strong teaching staff. Without exception teachers are experienced, and well trained, and have a real knowledge of their

particular subject. In addition, they realize that their real job is to train boys and girls, and not merely to teach subjects. Only through the real interest and cooperation of teachers, has such success in athletics, in dramatics, and other so-called extra-curricula activities been made possible.

Administration. In order to give increased efficiency to the work, it has seemed desirable to change from a day of eight forty-minute periods to six fifty-five minute periods. This permits an additional short period at the end of each day for such activities as assemblies, glee club, social club, rifle club, and other activities which allow pupils to express themselves in activities of their own choosing, to their interest as well as to their profit. In the longer class room periods of fifty-five minutes, it is possible for teacher to devote a part of the period to greater help of individuals, and to supervised study. The pupils do part of their home assignment in the class room, under the guidance of a teacher, and any difficulties can be made clear by the teacher. This supervision should help to reduce failures, and will also make possible beneficial work with the more gifted pupils as well.

In addition, this activity period will give opportunity for review and teaching of the fundamentals of arithmetic, spelling, and writing, which need attention by many of the pupils of High School. It is only through such review and drill that the skills attained in the grades can be maintained. This change to a longer period is in line with educational practice elsewhere.

Attendance. The attendance record of Wilton High School is poor. Absence from class is often the principal cause of failure in course, and parents and teachers must cooperate to eliminate the practice of allowing pupils to stay out of school for trivial rea-

sons. Tardiness has been unusually prevalent this year, although some improvement is being made in this respect. Our aim is to have every pupil realize the value of punctuality, and we count on the parents to help us to this end. Unsatisfactory attendance at school is often the first indication of other more serious child delinquency, and we hope that every pupil will be in class every day except when absence is absolutely necessary because of illness or other real necessity.

In closing may I express my sincere appreciation to all teachers, to Superintendent Ames, and to the members of the School Board for their loyal support and cooperation, and to the many others whose help has made this year both pleasant and profitable.

Respectfully submitted,

CALEB H. NILES,
Headmaster of Wilton High School.

REPORT OF THE SCHOOL NURSE

To the School Board and Citizens of Wilton:

I submit my annual report as School Nurse.

Three hundred and fifty-seven boys and girls were examined by Dr. Rice and Dr. Powers with the nurse to keep records, weigh and do vision tests. Hearing tests have not been made. Mr. Ames has arranged for use of an audiometer for that purpose at a later date.

Defects found:

Defective tonsils and adenoids	81	
June to October corrections		24
October to February corrections		9
Defective teeth	129	
Without defect or corrected		230
Cardiac disease	8	
Under supervision		8
Corrected		1
Defective speech	2	
T. and A. improved		1

Deformities:

2 Postural		
3 Pedal		
1 Spinal Curvature, brace—N. H. C. C. C.		
1 Wry Neck—Clinic arrangement for June 1937		
Susp. Hilum Gland Condition	8	
Under supervision N. H. Chest Clinic		5
X-rayed		2
Nervous condition	5	
Treated		2
Defective vision	44	
Corrected since October		14

Comparatively small numbers of Wilton school children have had absences caused by epidemic ill-

ness this year. February 1 to February 8, check-up shows an average of about sixteen out with "grippe" daily. Absences are short, three to five days, except for the occasional child who develops complications. We had one case of chicken pox January 6. Another child was excluded as a suspect but did not develop chicken pox. We had no following cases.

I think we have an exceptional first grade this year. Only three in that group have uncorrected physical defects other than teeth. Marilyn Burke and Leo Pellerin, Grade I, have neither been absent or tardy at the end of the half year.

Vision corrections were made possible for two high school pupils by the Wilton Winter Carnival Fund; tonsilectomies for four and glasses for one child were provided from Red Cross funds; built-up orthopedic shoes for one child were also a private Red Cross contribution.

Wilton had the finest representative group of pre-school children examined at any State Board of Health Toxoid Clinic, to date November 20, 1936. Twenty-nine were given examination and nineteen accepted toxoid. Only three children examined were found to have other than minor defects.

Three pre-school children are under supervision of the N. H. Crippled Children's Clinic at Elliot Hospital, Doctor Jones. One child is recovering from surgical interference and wearing a cast for repair of clubbed feet. Another child had a dislocated joint reduced. The third is being built up to withstand an operation for hare-lip. The pre-school children of the present are the future school citizens.

Several Tonsil and Adenoid Clinic groups received operation by Dr. Provost at the Hillsborough County Hospital Clinics.

Many with vision defects were benefitted by re-

fraction and glasses at clinic rates by Dr. Babbitt of Nashua and Mr. Sanborn of Wilton.

The local Chest Clinic was held at Wilton Town Hall in June. The usual group were examined by Dr. Kerr. Two with suspicious pulmonary conditions were given follow-up and X-rays at Manchester; both were found to be negative T. B. One new heart murmur was found.

Special physical examination was given Wilton basketball squads, including record of time required for heart to quiet after exercise, blood pressure, and in some cases color tests. All participants in Physical Education were examined for Athlete's Foot. Seven suspected cases were found and two with definite diagnosis. These people are required to wear rubber foot covering in the showers. A solution of H.T.H. 15% chlorine, recommended by the State Board of Health is placed at the entrance of the showers and is stepped in twice per individual. With these precautions, no new cases have developed.

Respectfully submitted,

EDNA J. GILBERT, R. N.

Wilton, N. H., February 11, 1937.

REPORT OF COMMITTEE TO SELL CERTAIN OF THE RURAL SCHOOL PROPERTIES

The committee appointed by the moderator of the school district for the purpose of selling certain of the rural school properties makes the following report.

On May 16, 1936 a public auction was held at the Wilton Center schoolhouse and the properties were sold. The transactions of the sales were as follows:

Receipts

Kimball Heights	\$57 50	
Davisville	60 00	
Intervale	35 00	
Abbot Hill	375 00	
Center	700 00	
	<hr/>	\$1227 50

Expenses

Luther Langdell, 5%	\$61 37	
H. D. Cheever, legal	18 00	
Copies of deeds	2 50	
	<hr/>	81 87

Paid treasurer of school district	\$1145 63
-----------------------------------	-----------

As no title could be found to the land at the Davisville School we felt that this land went with the local farm. To clarify the situation (with the understanding that Miss Hartshorn pay for the deed) we have given Miss M. M. Hartshorn a Quit Claim Deed to the same.

EUGENE RIDEOUT,
WHITNEY M. FRYE,
ERNEST WRIGHT.

Report of Trustees of Trust Funds

Three funds for care of cemetery lots were received during the year, making total funds for that purpose 91.

The receipts and expenditures of each fund are shown in the report. The receipts from Hannah Howard and Isaac Spalding School Funds were paid to the Treasurer of the School District.

During the year the C. F. Melendy Mortgage was paid and proceeds, together with small balance in Savings Department of Wilton National Bank, were invested in Federal Farm Loan $3\frac{1}{4}\%$ Bonds.

Respectfully submitted,

W. L. STANTON,

For the Committee.

Report of the Trust Funds for the Town of Wilton for the Year Ending January 31, 1937
